## **DETAILED ACTION**

### **ELECTION/RESTRICTIONS**

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I is directed to a data processor operating system.

Species II is directed to a system for security, validation, and verification of a game data.

Species III is directed to a system for resumption of a game after loss of power.

Species IV is directed to a networked gaming system.

Species V is directed to a gaming system with a progressive jackpot.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic to the total set of claims. Overall the emphasis of the disclosure is towards an operating system customized for managing gaming devices.

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious

variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

#### CONCLUSION

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven Ashburn whose telephone number is 703 305 3543. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Valencia Martin-Wallace can be reached on 703 308 1148. The fax phone numbers for the organization where this application or proceeding is assigned are 703 305 3590 for regular communications and 703 308 3579 for After Final communications.
